ThermoGlass

At normal room temperature, the glass has a white frosted appearance. Watch in wonder as the glass changes colour when cold liquid is added!

Our exciting new TruColour® service enables you to have your own choice of Pantone colour printed directly onto an extensive collection of screen printed mugs.

- *No colour restrictions*
- *You choose the colour, we match it.. It's that simple!*
- *Your colour choice remains just as vibrant on dark glazes*

"Savage Promotions made the whole process stress free and delivered us quality products at a competitive rate."
